

Hazel Hawkins
MEMORIAL HOSPITAL

Modern Medicine, Compassionate Care

A LETTER TO OUR COMMUNITY

Hazel Hawkins Memorial Hospital has served Hollister for 110 years. But we believe our present is more important than our past. We have grown to offer San Benito County hundreds of health services across multiple locations. We invite you to get to know Hazel Hawkins Hospital today.

Today, more than 20 different Hazel Hawkins facilities serve our community, including a Multi-Specialty Care Center, Orthopedic and Joint Center, Ambulatory Surgery Center, the Barragan Family Diabetes Center, and Focus Sports Therapy. We also operate two skilled nursing facilities, four community clinics, and four laboratories.

At our main hospital, located at 911 Sunset Drive in Hollister, Hazel Hawkins Emergency Room doctors and staff welcome you 24-hours a day, offering convenience and the advanced services you need in an emergency. The Hazel Hawkins Women's Center is a state-of-the-art center for a miraculous stage of life...the beginning.

Other vital services include home health care, physical therapy and rehabilitation, pediatrics, primary care, and internal medicine. Wherever you go, Hazel Hawkins' top-tier specialists and staff excel in modern medicine and compassionate care.

Hazel Hawkins Memorial Hospital has continually adapted to meet our patients' changing healthcare needs, adding satellite facilities and specialties wherever we see a need. Our goal is to provide San Benito County with comprehensive healthcare services, eliminating the need to travel long distances for care.

To ensure San Benito County has the most robust, sustainable health system possible, we believe the next smart step is partnering with another forward-thinking healthcare system. Although Hazel Hawkins Hospital is not for sale, we believe joining with a capable partner will lead to an even higher level of healthcare services and specialties for our steadily growing community.

Our community agrees – in a recent poll of San Benito County residents conducted by J. Wallin Opinion Research company, 82% of residents polled felt that a partnership with a larger health system would help their community. The goal of any future partnership is to increase patient resources and strengthen financial stability so that our community remains in good hands. We aim to provide more specialists, create economies of scale, and better streamline our patient care services.

Hazel Hawkins Memorial Hospital has always looked after our community and taken proactive steps to address changes in healthcare that affect not only our community but the whole country. We are committed to making sure healthcare in San Benito County remains strong today and into the future.

Ken Underwood
CEO

Mary McCullough
President of the Board of Directors

Although Hazel Hawkins Hospital is not for sale, we believe joining with a capable partner will lead to an even higher level of healthcare services and specialties for our steadily growing community.
